

## How to be safe online A performance by 'Barking up the right tree.'

The play was great and taught us what to do and how to be safe online. We learnt an awful lot like:

- People pretend to be other people with fake ID accounts on social media sites. They told us not to add people on social media who you don't know. You have to be a certain age to be on social media because of what can happen.
- There a lot of dangers online. If you have Snapchat or any social media that gives your location please turn it off or put on ghost mode so no one can see you where your location is.
- They said not to meet up with anyone you don't know. If the person who you don't know is sending inappropriate messages tell your parents.
- This play was very fun and active. They played fun activities and asked us questions which we had to answer. They were very reliable and they played out what could happen behind a screen.
- This was very exciting and we all enjoyed it. We are thankful that they came to use their time to keep us safe online.
