

Lego Success

St. Peter's have recently won the prestigious Lego league tournament beating 14 other primary and secondary schools across Redcar & Cleveland. The team have been working hard at programming the robot and were asked to research into improving learning for a topic of their choice.

The team chose healthy eating and called themselves 'The Veg-ucators'. They wrote songs about healthy eating based around familiar Christmas theme tunes. They then went to Sainsbury's at Saltburn to sing their songs and hand out informative leaflets to the public. The team will now travel to Loughborough University to compete in the national finals, the winner of which will compete in America!

The team supported by Mr Ormerod and School Governor Neil Selley.
