

IMMI'S IGLOO

Many thanks to everyone who brought milk cartons to school for our igloo.

Our igloo begins.

Mrs Booth helped us to fix them together with a glue gun.

The igloo got higher and higher.

At last it was finished!

We decorated it with feathers, flowers, birds and starfish like Immi did in the story.

We are having great fun playing in it. Now that it is completed we will be turning it into a coral reef with a mermaid as part of our new topic in the Summer term. We will post some more pictures when it is completed.
