

## Reception's visit from the Doctor

On Thursday 2<sup>nd</sup> May Doctor Judith and medical student Lauren from Newcastle University visited Reception class to talk about keeping healthy. The Reception children all brought in a teddy or doll from home that needed a trip to the doctors.

We talked about healthy foods and had to draw what we had for dinner. We used real stethoscopes to listen to our heartbeats and checked how they had changed after we had been exercising. We talked about teeth and looked at skulls to see the different types of teeth. We also talked about the importance of keeping our teeth healthy and how to do it. We then talked about what we need when we are ill or injured and we gave our dolls and teddies bandages and injections. We also talked about keeping our mind healthy. It was a great afternoon!
