

St. John's Ambulance First Aid session with the Y6 pupils

On Tuesday 9th February, 38 year-6-pupils had a two hour input from the St. John's Ambulance Service which covered the following modules: Bleeding and bruising-minor, Communication and casualty care, Primary Survey, recovery position and severe bleeding. The children were very receptive to the training and we have two nominated first aid ambassadors from the session who will help lead a first aid dinner time club after half term.
